\* Company has agreed to keep sanctioned fund-based working capital limits unutilized to the extent of CPs issued

### Detailed Rationale & Key Rating Drivers

The ratings continue to derive strength from long standing track record & experience of its promoters of MAS Financial Services Limited (MFSL) in the lending business, experienced senior management team, diversified loan portfolio, moderate geographical diversification, comfortable asset quality on the back of adequate appraisal systems, strong resource base with long standing association with multiple banks, comfortable capital adequacy, strong financial risk profile marked by high net interest margin (NIM) & return on total assets (ROTA) and comfortable liquidity profile.

The long-term rating is, however, constrained on account of its concentrated borrower profile and exposure to relatively riskier micro enterprises and small and medium enterprises (SME) sectors.

Ability of MFSL to significantly grow its scale of operations while maintaining its asset quality, profitability & capital adequacy, reducing its reliance on bank finance and improving its risk management systems with anticipated growth in its scale of operations would be the key rating sensitivities.

### Detailed description of the key rating drivers

#### Key Rating Strengths

#### **Long standing track record, experience of the promoters in the lending business and experienced senior management team**

The promoters of MFSL have established track record of over 2 decades in the retail lending business. MFSL initially started its lending activities in the state of Gujarat and gradually has ventured and established its footprint in other 6 states. In the past 2 decades, MFSL has expanded its operations across 124 branches and 3311 locations and is catering to the funding requirement of around 5 lakh live customers. Furthermore, the senior management team of MFSL comprises of experienced professionals who have been in the retail lending business and have been associated with MFSL since its inception. These personnel continue to head the main functions at MFSL.

#### **Diversified loan portfolio**

The loan portfolio of MFSL comprises of micro enterprises loans, SME loans, two-wheeler loans, commercial vehicle loans and housing finance loans. MFSL was initially engaged in lending of two-wheeler and micro enterprises loans and later on forayed into commercial vehicle loan, small and SME loan and housing loan segments. Even in the aforesaid loan categories, significant amount of portfolio is built up through NBFCs and NBFC-MFIs. Moreover, about 35% of the total assets under management (AUM) of MFSL are directly assigned to banks and financial institutions. Due to product diversification, MFSL has been able to grow its total AUM at a CAGR of 26.49% during last three years ended FY18.

<sup>1</sup>Complete definitions of the ratings assigned are available at [www.careratings.com](http://www.careratings.com) and in other CARE publications.

***Moderate geographical diversification***

The lending activities of MFSL are directly carried out in 7 states. MFSL initially started its lending activities in the state of Gujarat and has gradually ventured and established its footprint in other 6 states of Rajasthan, Maharashtra, Madhya Pradesh, Karnataka, Tamil Nadu and Delhi. However, as significant amount of MFSL's lending activities are carried out through NBFCs / NBFC-MFIs it has resulted in highly diversified exposure of MFSL. Gujarat accounts for around 35% of the standalone total loan portfolio of MFSL as on March 31, 2018 driven by operational familiarity of the promoters with the Gujarat market whereas other 28 states and union territories account for balance 65%.

***Comfortable asset quality on the back of adequate appraisal systems***

The gross and net Non-Performing Assets (NPAs) of MFSL stood at 1.11% and 0.88% respectively as on March 31, 2018 as compared to 1.06% and 0.92% respectively as per March 31, 2017. Till FY17, the NPA recognition policy was 120+DPD (Days Past Due). However, from FY18 onwards, the same has been revised to 90+DPD. The NPA levels have remained comfortable even after migration to a more stringent NPA recognition policy, growth in AUM, impact of demonetisation, implementation of Real Estate (Regulation and Development) Act, 2016 (RERA) & GST. This was possible mainly on account of adequate credit appraisal processes and systems adopted by the company. As per the management of the company, the credit appraisal process of MFSL is reviewed and revised at regular interval based on its experience in the market. The credit appraisal process at MFSL is centralised. Sanctions are accorded by the centralised credit team whereas sourcing and collection functions are carried out at branch level. Multiple checks are carried out at centralised unit prior to disbursement. The asset quality is also comfortable due to near zero delinquencies in the loans to NBFCs and NBFC-MFIs majority of which have comfortable financial risk profile. Also, these loans are backed by security deposits in the form of cash collateral and corporate / personal guarantees taken by MFSL from the NBFCs and NBFC-MFIs. Moreover, the delinquencies are lower in case of micro-enterprises and SME loans which collectively account for approx. 84% of MFSL's AUM as on March 31, 2018.

***Comfortable capital adequacy ratio and strong resource base with its long standing association with multiple banks***

In October 2017, MFSL came out with an Initial Public Offer (IPO) and raised capital of Rs.233 crore. MFSL had also raised Rs.100 crore in March 2017 and Rs.35 crore in April 2017 in the pre IPO round of funding. Post capital infusion in FY18, the capital adequacy ratio (CAR) of MFSL improved to 31.29% in FY18 as compared to 22.94% in FY17. Out of total CAR, Tier-I CAR stood at 29.06% and 16.88% as on March 31, 2018 and March 31, 2017 respectively. Also, even after the IPO, promoter holding in MFSL has been retained at 73.33% as on March 31, 2018. Also, the promoters of MFSL have healthy relations with 28 banks and financial institutions for meeting its borrowing requirements based on which MFSL is able to raise resources in a timely manner and at competitive rate of interest thereby providing significant financial flexibility to MFSL. Most of the banks / financial institutions are also the ones to whom MFSL sells its portfolio under the direct assignment route. Existing capitalization level and strong resource base is envisaged to provide impetus to MFSL for growth in its loan portfolio over the next 5 years.

***Strong financial risk profile marked by high Net Interest Margin (NIM) and Return on Total Assets (ROTA)***

With growth in its loan portfolio, the profitability ratios of MFSL have improved marked by improvement in NIM to 7.58% in FY18 as compared to 6.79% in FY17. The same is due to reduction in weighted average cost of borrowings from 9.44% in FY17 to 8.67% in FY18. Moreover, ROTA of MFSL has also registered an improvement to 2.70% in FY18 compared to 2.20% in FY17. The same is due to growth in micro enterprises loans and two-wheeler loans in FY18 (which collectively account for approx. 70% of the total AUM as on March 31, 2018) as yield on these two products is higher compared to other loan products.

***Comfortable liquidity profile***

The liquidity profile of MFSL has remained comfortable on the back of strong resource base and good amount of unutilized bank limits. It has comfortable ALM without any mismatches. In FY18, the average utilization of the working capital limits remained comfortable at 55.61%. Also, the sanctioned fund based working capital limit has been enhanced for FY19. The total unutilized limits of MFSL can take care of upcoming 2-3 months of disbursements. Furthermore, due to the unutilized fund based working capital limits, the asset liability maturity profile of MFSL is expected to remain favourable.

## Key Rating Weaknesses

### **Concentrated borrower profile**

A significant portion of MFSL's exposure is to its top 10 borrowers. As on March 31, 2018, the top 10 exposures of MFSL accounted for approx. 57% of its tangible net-worth as on March 31, 2018 indicating high borrower concentration risk. This is because of significant exposure of MFSL to other NBFCs and NBFC-MFIs. Deterioration in quality of any of these exposures may lead to sharp increase in NPA levels of MFSL. Accordingly, credit quality of its large exposures would remain a key rating monitorable.

### **Exposure to relatively riskier Micro enterprises and SME sectors**

The portfolio of MFSL comprises retail products like micro enterprises loans, SME loans, two-wheeler loans and commercial vehicle loans, which are high yield generating and low-price sensitive segments and at the same time are relatively riskier in nature. Also, about 55% of the exposure of MFSL in these segments is through NBFCs and NBFC-MFIs. However, the same is partly mitigated by 5-15% cash collateral and corporate / personal guarantees taken by MFSL from the NBFCs and NBFC-MFIs.

**Analytical Approach:** Consolidated; MFSL and its subsidiary viz. MAS Rural Housing and Mortgage Finance Limited (MRHMFL).

## About the Company

MFSL was incorporated in the year 1995 by Mr. Kamlesh Gandhi and Mr. Mukesh Gandhi. The company was registered as a non-banking financial company (NBFC) in 1998 with RBI. It was initially engaged in lending of two-wheeler and micro enterprises loans and later on forayed in commercial vehicle loan and SME loan segments. In the year 2008, MFSL floated a subsidiary, MRHMFL, a non-deposit taking National Housing Board (NHB) registered Housing Finance Company (HFC) which provides housing loans to the low-income group segment in rural and semi-urban areas. The lending activities of MFSL are carried out directly through its own network of 124 branches in 7 states and also through other smaller NBFCs and microfinance institutions (MFIs).

In October 2017, MFSL came out with an IPO and raised fresh equity capital of Rs.233 crore. MFSL had also raised Rs.135 crore in a pre IPO round of funding. The shares of MFSL are listed on Bombay Stock Exchange and National Stock Exchange.

#### **About CARE Ratings:**

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

#### **Disclaimer**

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
